

## Vicuña Corp. Applies for RIGI PEELP in Argentina

VANCOUVER, BC, Dec. 11, 2025 /CNW/ - (TSX: LUN) (Nasdaq Stockholm: LUMI) **Lundin Mining Corporation** ("Lundin Mining" or the "Company") is pleased to announce that Vicuña Corp. ("Vicuña") has submitted an application for the inclusion of the Josemaria and Filo del Sol deposits (collectively, the "Vicuña Project") to the Incentive Regime for Large Investments ("RIGI") under the Long-Term Strategic Export Projects designation ("PEELP") in Argentina. Argentina's RIGI regime is designed to attract and accelerate large-scale investment through long-term fiscal stability and transparent regulatory conditions.

The submission represents a key milestone to advance a multi-decade, district-scale copper-gold-silver development project in Argentina, making it one of the largest potential foreign investment projects into the country across all sectors. Vicuña Project details and economic benefits will be outlined in an integrated technical report expected to be completed in the first quarter of 2026.

Jack Lundin, President and CEO, commented "Submitting the Vicuña RIGI PEELP application is an important step in positioning the project for long-term success. The RIGI framework offers a stable investment environment that aligns well with the scale, capital intensity, and multi-decade potential of the Vicuña Project. The combination of RIGI benefits, provincial support, and the quality of the Vicuña Project resource base lays the foundation for transformative value creation. Together with our valued partner BHP we look forward to continuing to build on the solid relationship with the Argentinian and San Juan governments."

### About the RIGI Regime

RIGI offers a competitive investment framework and an array of benefits that significantly enhance project economics for rapid development. RIGI offers regulatory stability, including lower corporate and dividend withholding tax rates, removal of export duties, value added tax offsets and repatriation of revenues.

The Vicuña Project is the first mining project to apply for the RIGI PEELP, which is designed to support large scale, long-term investments into Argentina. RIGI PEELP provides longer benefit periods (40 years vs 30 years) and accelerated timelines to repatriate revenues and export duty exemptions, as compared to the regular RIGI regime.

### About Vicuña

Lundin Mining indirectly holds a 50% interest in Vicuña, an independently managed joint operation which owns the Josemaria deposit in Argentina and the Filo del Sol deposit in Argentina and Chile.

An initial Mineral Resource estimate for the Filo del Sol sulphide deposit, an updated Mineral Resource estimate for the Filo del Sol oxide deposit, and an updated Mineral Resource estimate for the Josemaria deposit highlighted the combined Vicuña Project as one of the largest copper, gold and silver resources in the world (see Lundin Mining's news release dated May 4, 2025).

The proximity of the Filo del Sol and Josemaria deposits form the basis of the Vicuña Project which allows for joint development capturing greater economies of scale, shared infrastructure and increased optionality for staged expansions to support a globally ranked mining complex.

### About Lundin Mining

Lundin Mining is a Canadian mining company headquartered in Vancouver, Canada with four operating mines in Brazil, Chile and the USA. We produce commodities that support modern infrastructure and electrification. Built for growth, ready for opportunity, our strategic vision is to become a top ten global copper producer. To get there, we are executing a clear growth strategy, which includes advancing one of the world's largest copper, gold, and silver projects in the Vicuña District on the border of Argentina and Chile, where we hold a 50% interest. With a legacy of value creation in the base metals sector, Lundin Mining has a proven track record of resource growth, operational excellence, and responsible development. We are committed to safety, sustainability, and delivering long-term value for stakeholders. Lundin Mining's shares trade on the Toronto Stock Exchange (LUN) and Nasdaq Stockholm (LUMI). ### Cautionary Statement on Forward-Looking Information

*Certain of the statements made and information contained herein are "forward-looking information" within the meaning of applicable Canadian securities laws. All statements other than statements of historical facts included in this document constitute forward-looking information, including but not limited to statements regarding the Company's plans, prospects, business*

strategies and strategic vision and aspirations and their achievement and timing; the Company's growth and optimization initiatives and expansionary projects, and the potential costs, outcomes, results and impacts thereof and timing thereof; permitting requirements and timelines; the results of any Preliminary Economic Assessment, Pre-Feasibility Study, Feasibility Study, or Mineral Resource and Mineral Reserve estimations, life of mine estimates, and mine and mine closure plans; anticipated exploration and development activities, including potential outcomes, results, impacts and timing thereof; the Company's integration of acquisitions and expansions and any anticipated benefits thereof, including the anticipated project development and other plans and expectations with respect to the Vicuña Project and the 50/50 joint arrangement with BHP; anticipated costs and benefits of the Vicuña project; mineral resource estimation for the Vicuña Project, including the parameters and assumptions related thereto; the operation of Vicuña with BHP; the realization of synergies and economies of scale in the Vicuña district; the development and future operation of the Vicuña Project; the timing and expectations for future studies and technical reports with respect to the Company's operations and projects, including the Vicuña Project; Vicuña's RIGI PEELP application and the timing and benefits thereof; and the leadership and management of Vicuña Corp. Words such as "believe", "expect", "anticipate", "contemplate", "target", "plan", "goal", "aim", "intend", "continue", "budget", "estimate", "may", "will", "can", "could", "should", "schedule" and similar expressions identify forward-looking information.

Forward-looking information is necessarily based upon various estimates and assumptions including, without limitation, the expectations and beliefs of management, including that the Company can access financing, appropriate equipment and sufficient labour; assumed and future price of copper, gold, zinc, nickel and other metals; anticipated costs; currency exchange rates and interest rates; ability to achieve goals; the prompt and effective integration of acquisitions and the realization of synergies and economies of scale in connection therewith; that the political, economic, permitting and legal environment in which the Company operates will continue to support the development and operation of mining projects; timing and receipt of governmental, regulatory and third party approvals, consents, licenses and permits and their renewals; positive relations with local groups; the accuracy of Mineral Resource and Mineral Reserve estimates and related information, analyses and interpretations; and such other assumptions as set out herein as well as those related to the factors set forth below. While these factors and assumptions are considered reasonable by Lundin Mining as at the date of this document in light of management's experience and perception of current conditions and expected developments, such information is inherently subject to significant business, economic, political, regulatory and competitive uncertainties and contingencies. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking information and undue reliance should not be placed on such information. Such factors include, but are not limited to: dependence on international market prices and demand for the metals that the Company produces; political, economic, and regulatory uncertainty in operating jurisdictions, including but not limited to those related to permitting and approvals, nationalization or expropriation without fair compensation, environmental and tailings management, labour, trade relations, and transportation; operating jurisdictions, including but not limited to those related to permitting and approvals, nationalization or expropriation without fair compensation, environmental and tailings management, labour, trade relations, and transportation; risks relating to mine closure and reclamation obligations; health and safety hazards; inherent risks of mining, not all of which related risk events are insurable; risks relating to tailings and waste management facilities; risks relating to the Company's indebtedness; challenges and conflicts that may arise in partnerships and joint operations; risks relating to development projects, including Filo del Sol and Josemaria; risks that revenue may be significantly impacted in the event of any production stoppages or reputational damage in Chile; the impact of global financial conditions, market volatility and inflation; business interruptions caused by critical infrastructure failures; challenges of effective water management; exposure to greater foreign exchange and capital controls, as well as political, social and economic risks as a result of the Company's operation in emerging markets; risks relating to stakeholder opposition to continued operation, further development, or new development of the Company's projects and mines; any breach or failure information systems; risks relating to reliance on estimates of future production; risks relating to litigation and administrative proceedings which the Company may be subject to from time to time; risks relating to acquisitions or business arrangements; risks relating to competition in the industry; failure to comply with existing or new laws or changes in laws; challenges or defects in title or termination of mining or exploitation concessions; the exclusive jurisdiction of foreign courts; the outbreak of infectious diseases or viruses; risks relating to taxation changes; tax-related disputes; receipt of and ability to maintain all permits that are required for operation; minor elements contained in concentrate products; changes in the relationship with its employees and contractors; the Company's Mineral Reserves and Mineral Resources which are estimates only; uncertainties relating to inferred Mineral Resources being converted into Measured or Indicated Mineral Resources; payment of dividends in the future; compliance with environmental, health and safety laws and regulations, including changes to such laws or regulations; interests of significant shareholders of the Company; asset values being subject to impairment charges; potential for conflicts of interest and public association with other Lundin Group companies or entities; activist shareholders and proxy solicitation firms; risks associated with climate change; the Company's common shares being subject to dilution; ability to attract and retain highly skilled employees; reliance on key personnel and reporting and oversight systems; risks relating to the Company's internal controls; counterparty and customer concentration risk; risks associated with the use of derivatives; exchange rate fluctuations;

*the terms of the contingent payments in respect of the completion of the sale of the Company's European assets and expectations related thereto; and other risks and uncertainties, including but not limited to those described in the "Risks and Uncertainties" section of the Company's MD&A for the three and nine months ended September 30, 2025, the "Risks and Uncertainties" section of the Company's MD&A for the year ended December 31, 2024, and the "Risks and Uncertainties" section of the Company's Annual Information Form for the year ended December 31, 2024, which are available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) under the Company's profile.*

*All of the forward-looking information in this document is qualified by these cautionary statements. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated, forecasted or intended and readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking information. Accordingly, there can be no assurance that forward-looking information will prove to be accurate and forward-looking information is not a guarantee of future performance. Readers are advised not to place undue reliance on forward-looking information. The forward-looking information contained herein speaks only as of the date of this document. The Company disclaims any intention or obligation to update or revise forward-looking information or to explain any material difference between such and subsequent actual events, except as required by applicable law.*
